> INTRODUCTION

### ONEcms enables our clients to create customized content and add variable text and images into any communication channel.

ONEcms streamlines template management by providing our clients with a self-service and virtual tool to create and edit customized content and messages within a document, website, or any media. Make global changes, edit static content, and create and deliver your information in real time. Eliminate hours of template design and reduces template versions by giving you complete control.

### ONEcms enables our clients to create customized content and add variable text and images into any communication channel.

- Create and manage variable content
- Business rules to determine content sharing in all medias
- Streamline templates
- Manage images within content library
- Approval workflows
- Real-time content rendering within a document

### ONEcms streamlines template management by providing our clients with a self-service and virtual tool to create and edit customized content and messages within a document, website, or any media.

From digital transformation to customer acquisition, satisfaction and retention, our ONEsuite platform has everything you need to achieve digital transformation goals and effectively improve customer communications.
